

To

A gift of **one month of school breakfasts for 9 children** has been donated on your behalf for children in the small village of Jambiani on the island of Zanzibar in Tanzania, East Africa. A child's ability to absorb information is greatest when they are young, and the opportunity to learn should never be disrupted by hunger pains and fatigue associated with not having enough to eat. Your gift of daily porridge provides these children with nutrition, which will have lasting positive effects as they continue on in their education.

A gift from:

Together we CAN make a difference
